

4H-TECH
SHORT SHIFTERS

F40 Transmission

The F40 gearbox in your car can be fitted with 4 different types of shifter systems. They are all complete different from each other.

It depends on the year of manufacture which shifter system is fitted by GM.

Not sure which 4H-TECH Short Shifter will fit your F40 gearbox? Here's a little help!

It is very easy:
Just open the hood, grab a flash-light and take a quick look, you'll see right away which one you have:

The following 3 Options are possible:

(pictures on the left are original Opel/Vauxhall or Chevrolet. Pictures on the right are the 4H-TECH short shifters versions of them.)

V-Shift

Does your gear shifter look like this one?
This type of shifter arm is used on the first versions of F40 transmissions. Made up to september 2008.

This type of transmission uses the 4H-TECH V-Shift as shortshifter version.

Z-Shift

Does your gear shifter look like this one?

This type of shifter arm is used on the second generation of F40 transmissions.

Made from October 2008 till 2013.

This type of transmission uses the **Z-Shift** as short shifter version:

K-Shift

Does your gear shifter look like this one?

This type of shifter arm is used on the third generation of F40 transmissions.

Made from 2013 till 05-2016.

This type of transmission uses the **K-Shift** as short shifter version.

K2-Shift

Does your gear shifter look like this one?

This type of shifter arm is used on the 4th generation of F40 transmissions.

Made from May 2016 till now.

The type of transmission uses the **K2-Shift** as short shifter version.
